Informatics
Intended Graduation in 2020

hobbies

Music
Reading Books
Writing
Filmmaking - Cinematography
Photography
Graphic Design

about me

I've been into web development since school days.
Wondering how does it work and how can I made one.
Playing around with WordPress, Blogger, Wix, customizing themes, plugins.
In recent years, I learn more about JavaScript, starting to learn and explore various frameworks like Angular, React, and Vue. Sometimes I spend time experimenting and wondering how to improve my projects or workflows in various ways.

I'm curious, passionate, and fast-learner.

skills / technologies

HTML5 - CSS3 - JavaScript - TypeScript
SASS - Webpack - Babel - CSS Modules
React - Ionic - Angular
Gatsby - NextJs - Firebase - GraphQL
Git - Android (Java)
